

ONE SHOT **REVISION SERIES**

CLASS 10 / ECONOMICS

GLOBALIZATION AND THE INDIAN ECONOMY

ADDITIONAL TOPIC  **EXPLAINED**

Chapter According to the Latest Syllabus

4	Globalisation and The Indian Economy To be evaluated in the Board Examination: • What is Globalization? • Factors that have enabled Globalisation
	Interdisciplinary project as part of multiple assessments (Internally assessed for 5 marks) • Production across the countries • Chinese toys in India • World Trade Organisation • The Struggle for a Fair Globalisation

4 Globalization and the Indian Economy Sub topics: What is Globalization? Factors that have enabled Globalisation Sub topics: Production across the countries	- Examine the concept of globalization and its definition, evolution, and impact on the global economy. - Explore the details of the key drivers of globalization and their role in shaping the global economic landscape in various countries - Examines the significance of role of G20 and its significance in the light of India's present role Inter disciplinary Project with chapter 3 of History: "The making of a Global World" and chapter 7 of Geography: "Lifelines of National Economy"	- Watch videos on globalisation followed by an interactive group discussion to enumerate the concept of globalization and its definition, evolution, and impact on the global economy Read Textual and other resources to analyse and infer the key drivers of globalization and their role in shaping the global economic landscape. Refer Annexure IV	- Enumerate the concept of globalization and its definition, evolution, and impact on the global economy. - Evaluate the key role of the key major drivers of globalization and their role in shaping the global economic landscape in various countries - Enumerates the significance of role of G20 and its significance in the light of India's present role Refer Annexure IV
Chinese toys in India World Trade Organisation The Struggle For A Fair Globalisation			

What is Globalisation?

MNCs act as an agent in the **process of Globalisation**. 🤔

Foreign Investment  + Foreign Trade  = Greater integration of production and market across countries.

Globalization is a process of rapid integration or interconnection between countries.

Globalisation

Globalisation : A broad concept

- World coming closer.
- Movement, of goods, services, investments, and technology.

+

- Movement of people between countries. →  →

In search of better income, better jobs or better education.

However, there has not been much increase in the movement of people between countries due to various restrictions. 🤖

Factors that have Enabled Globalisation

1. Technology
2. Liberalisation of foreign trade and foreign investment policy.

1. Improvement in technology

Stimulate the globalisation process.

Explain

Improvement in transportation technology

- This has made much faster delivery of goods across long distances possible at lower costs.

Containers for transport of goods

Goods are placed in containers that can be loaded intact onto ships, railways, planes and trucks. Containers have led to huge reduction in port handling costs and increased the speed with which exports can reach markets. Similarly, the cost of air transport has fallen. This has enabled much greater volumes of goods being transported by airlines.

Development in information and communication technology

- Telecommunication, computers, and internet are some of the developments which are connecting world to remote areas with satellite communication devices.

Information and communication technology (or IT in short) has played a major role in spreading out **production of services** across countries. Let us see how.

Using IT in Globalisation

A news magazine published for London readers is to be designed and printed in Delhi. The text of the magazine is sent through Internet to the Delhi office. The designers in the Delhi office get orders on how to design the magazine from the office in London using telecommunication facilities. The designing is done on a computer. After printing, the magazines are sent by air to London. Even the payment of money for designing and printing from a bank in London to a bank in Delhi is done instantly through the Internet (e-banking)!

LET'S WORK THESE OUT

- In the above example, underline the words describing the use of technology in production.
- How is information technology connected with globalisation? Would globalisation have been possible without expansion of IT?

IT LOOKS LIKE A VERY NICE MAGAZINE. BUT WHY ISN'T MY TEXTBOOK PRINTED LIKE THIS? I CAN HARDLY READ THE WORDS IN MY BOOK!

NO, MY CHILD THIS PRINTING PRESS IS NOT FOR ORDINARY INDIANS!

2. Liberalisation of foreign trade and foreign investment.

What is Liberalisation? ➡

Need

After Independence

Trade Barriers : Tax on import is an example of trade barrier, governments can use trade barriers to increase or decrease (regulate) foreign trade. 🚂

This was considered necessary to protect the producers within the country from foreign competition. Industries were just coming up in the 1950s and 1960s.

No Imports

➡ Only essential items were allowed.

After 1990's

Around 1991, some changes in policy were made in India.

- The government decided that the time had come for Indian producers to compete with producers around the globe.
- It felt that competition would improve the performance of producers within the country since they would have to improve their quality.
- This decision was supported by powerful international organisations.

Liberalisation

Removing barriers or restrictions set by the government is what is known as liberalisation.

Impact of liberalisation: Foreign trade, Foreign investment

- Goods could be imported and exported easily and also foreign companies could set up factories and offices here.
- Businesses are allowed to make decisions freely about what they wish to import or export.
- The government imposes much less restrictions than before and is therefore said to be more liberal.

India and the G20

=

Group of 20

- G20 was founded in 1999, is an international, intergovernmental forum for economic cooperation comprising 19 countries and the European Union (EU).
- The members of the G20 are **Argentina, Australia, Brazil, Canada, China, France, Germany, India, Indonesia, Italy, Japan, Republic of Korea, Mexico, Russia, Saudi Arabia, South Africa, Türkiye, the United Kingdom, the United States, and the European Union.**

Significance and functioning 🐼

- Leaders from the member countries meet annually to discuss significant issues pertaining to the global economy including international financial stability, digital economy, climate finance and climate change mitigation, and sustainable development.
- Its members represent 85% of global GDP, 75% of international trade and two-thirds of the world's population.

Indian's Role in the G20

- The G20 presidency rotates among the member countries annually and is being assumed by India from Indonesia from **1st December 2022**. India will convene the G20 Leader's summit for the first time in the country in **September 2023**.
- It seeks to find pragmatic global solutions for the wellbeing of all while manifesting the true spirit of '**Vasudhaiva Kutumbakam**'.
- India wants to bring about a shared global future for all through the **Amrit Kaal** initiative with a focus on the LIFE (Lifestyle for Environment) movement which aims to promote a sustainable way of life through the practice of environmentally-conscious practices.

India's Role in the G20

The six thematic priorities of India's G20 presidency are as follows:

- (1) Green Development, Climate Finance & LIFE.
- (2) Accelerated, Inclusive & Resilient Growth
- (3) Accelerating Progress on SDGs.
- (4) Technological Transformation & Digital Public Infrastructure.
- (5) Multilateral Institutions for the 21st century.
- (6) Women-led Development.
