

CBSE / NCERT | CLASS X | 2026-27 PRACTICE EDITION

Social Science

Assertion and Reason

History | Geography | Political Science | Economics

25 chapters | 50 questions | answer key with explanations

How to answer

Judge Assertion (A) and Reason (R) separately, then decide whether R explains A.

A	Both A and R are true, and R explains A.
B	Both A and R are true, but R does not explain A.
C	A is true, but R is false.
D	A is false, but R is true.

The chapter set includes textbook extension chapters too. Status labels distinguish current board content, formative/project/map-only items and chapters not listed in the cited annual syllabus.

01. History - The Rise of Nationalism in Europe

Board course

Q1

Assertion (A): The French Revolution helped spread the idea of a nation based on citizens.

Reason (R): Revolutionary reforms transferred sovereignty from the monarch to the people.

Q2

Assertion (A): The Congress of Vienna aimed to restore conservative order after Napoleon.

Reason (R): Its settlement strengthened dynastic rulers and redrew parts of Europe.

02. History - Nationalism in India

Board course

Q1

Assertion (A): The Rowlatt Act permitted detention without trial.

Reason (R): The Act gave the colonial government broad powers to repress political activity.

Q2

Assertion (A): The Salt March became a symbol of resistance to colonial rule.

Reason (R): Salt was used by rich and poor alike, and the tax affected all Indians.

03. History - The Making of a Global World

Board subtopics 1-1.3; later sections used in interdisciplinary project

Q1

Assertion (A): Pre-modern trade connected distant regions before modern globalisation.

Reason (R): Silk routes carried goods, people, ideas and diseases across continents.

Q2

Assertion (A): The spread of disease helped Europeans conquer the Americas.

Reason (R): Indigenous populations had little immunity to many diseases brought from Europe.

04. History - The Age of Industrialisation

Formative assessment only in the 2025-26 CBSE syllabus

Q1

Assertion (A): Proto-industrial production existed before factories became widespread.

Reason (R): Merchants supplied raw materials to rural households that produced goods by hand.

Q2**Assertion (A):** Industrialisation immediately removed all hand production.**Reason (R):** Some hand-made goods continued to serve markets that valued specialised or fine work.

05. History - Print Culture and the Modern World

Board course

Q1**Assertion (A):** Print helped circulate new ideas to a wider reading public.**Reason (R):** Printed books and pamphlets could be reproduced in many copies.**Q2****Assertion (A):** The print revolution changed how knowledge could be shared.**Reason (R):** It reduced the cost and time needed to produce multiple copies compared with hand-copying.

06. Geography - Resources and Development

Board course

Q1**Assertion (A):** Resource planning is important for sustainable development.**Reason (R):** Resources are unevenly distributed and may be depleted or degraded.**Q2****Assertion (A):** Alluvial soil is generally fertile for agriculture.**Reason (R):** It is formed through the deposition of fine sediments by rivers.

07. Geography - Forest and Wildlife Resources

Board course

Q1**Assertion (A):** Biodiversity conservation is important for ecological balance.**Reason (R):** Species in an ecosystem can depend on one another through food webs and habitats.**Q2****Assertion (A):** Community participation can support forest conservation.**Reason (R):** Local people often depend on forests and can help protect them through shared rules.

08. Geography - Water Resources

Board course

Q1**Assertion (A):** Rainwater harvesting can help reduce pressure on local water supplies.**Reason (R):** It captures and stores rainwater for later use or groundwater recharge.**Q2****Assertion (A):** Multipurpose river projects can create conflicts over water.**Reason (R):** Different regions and users may disagree about sharing and timing of releases.

09. Geography - Agriculture

Board course

Q1**Assertion (A):** Rice is commonly grown as a kharif crop in India.**Reason (R):** It is generally sown with the monsoon and harvested after the rainy season.**Q2****Assertion (A):** Commercial farming is always independent of market demand.**Reason (R):** Commercial farmers often grow crops for sale in markets.

10. Geography - Minerals and Energy Resources

Board course

Q1**Assertion (A):** Minerals are considered non-renewable on a human timescale.**Reason (R):** Most mineral deposits take geological periods to form.**Q2****Assertion (A):** Conserving energy resources can reduce pressure on finite reserves.**Reason (R):** Using energy efficiently lowers the amount that must be extracted or produced.

11. Geography - Manufacturing Industries

Board course

Q1**Assertion (A):** Manufacturing adds value to raw materials.**Reason (R):** Processing transforms raw materials into products with greater utility or value.**Q2****Assertion (A):** Industrial location depends on only one factor everywhere.**Reason (R):** Transport, labour, markets, power and raw materials can all influence location.

12. Geography - Lifelines of National Economy

Board exam: map pointing only; concept practice included

Q1

Assertion (A): Transport and communication networks support trade across regions.

Reason (R): They help move goods, people and information between places.

Q2

Assertion (A): Ports are important nodes in international trade.

Reason (R): Ships carry large volumes of goods between countries.

13. Political Science - Power-sharing

Board course

Q1

Assertion (A): Power-sharing can reduce the possibility of social conflict.

Reason (R): It gives different groups a role in decision-making.

Q2

Assertion (A): Power-sharing is a feature only of non-democratic governments.

Reason (R): Democracies distribute power among institutions and levels of government.

14. Political Science - Federalism

Board course

Q1

Assertion (A): In a federation, constitutional powers are divided between levels of government.

Reason (R): Each level has authority over its own jurisdiction.

Q2

Assertion (A): Linguistic reorganisation of Indian states weakened national unity.

Reason (R): It allowed people to govern in their own languages within the Union.

15. Political Science - Democracy and Diversity

Not listed in the 2025-26 annual CBSE course; textbook extension

Q1

Assertion (A): Social differences do not always lead to social divisions.

Reason (R): People can share identities that cross-cut a single difference.

Q2**Assertion (A):** Overlapping social differences can make divisions more difficult to bridge.**Reason (R):** The same groups may be separated across several dimensions at once.

16. Political Science - Gender, Religion and Caste

Board course

Q1**Assertion (A):** A democratic society should not treat one religion as superior to others.**Reason (R):** Secularism requires equal respect and no official domination by a religion.**Q2****Assertion (A):** Caste inequalities have disappeared completely from Indian society.**Reason (R):** Caste can still influence access, social status and political life.

17. Political Science - Popular Struggles and Movements

Not listed in the 2025-26 annual CBSE course; textbook extension

Q1**Assertion (A):** Popular movements can influence public policy.**Reason (R):** They organise citizens to raise demands and press decision-makers.**Q2****Assertion (A):** Every movement uses the same methods of protest.**Reason (R):** Movements may use demonstrations, campaigns, petitions or other methods.

18. Political Science - Political Parties

Board course

Q1**Assertion (A):** Political parties help voters choose among policy programmes and candidates.**Reason (R):** Parties contest elections and present competing proposals for government.**Q2****Assertion (A):** A one-party system always provides voters with several competing parties.**Reason (R):** In a one-party system, only one party is legally allowed to control government.

19. Political Science - Outcomes of Democracy

Board course

Q1**Assertion (A):** Democracy is expected to produce a more accountable government.**Reason (R):** Leaders can be questioned and replaced through public processes and elections.**Q2****Assertion (A):** Democracy guarantees that every economic inequality disappears.**Reason (R):** Democratic governments can still face unequal incomes and opportunities.

20. Political Science - Challenges to Democracy

Not listed in the 2025-26 annual CBSE course; textbook extension

Q1**Assertion (A):** Democratic reform should strengthen participation and accountability.**Reason (R):** Reforms can improve institutions and the way citizens engage with them.**Q2****Assertion (A):** There is one identical reform that solves every democratic challenge.**Reason (R):** Challenges differ across countries and political contexts.

21. Economics - Development

Board course

Q1**Assertion (A):** Different people can have different development goals.**Reason (R):** People value different outcomes, such as income, security, equality or freedom.**Q2****Assertion (A):** Average income alone describes every aspect of development.**Reason (R):** Health, education and distribution of income also matter.

22. Economics - Sectors of the Indian Economy

Board course

Q1**Assertion (A):** The tertiary sector supports both primary and secondary activities.**Reason (R):** Services such as transport, banking and communication help production and distribution.**Q2****Assertion (A):** Every worker in the organised sector lacks job security.**Reason (R):** Organised-sector employment generally follows formal rules and provides regulated conditions.

23. Economics - Money and Credit

Board course

Q1

Assertion (A): Money removes the need for a double coincidence of wants in exchange.

Reason (R): A buyer can pay money even when the seller does not want the buyer's good.

Q2

Assertion (A): Formal credit sources are supervised by the Reserve Bank of India.

Reason (R): Banks and cooperatives are examples of formal credit institutions.

24. Economics - Globalisation and the Indian Economy

Board subtopics: meaning and enabling factors; other textbook sections are project work

Q1

Assertion (A): Globalisation has increased the integration of production and markets across countries.

Reason (R): Information technology and faster transport help connect distant producers and consumers.

Q2

Assertion (A): Foreign trade can connect the markets of different countries.

Reason (R): It allows goods and services produced in one country to be sold in another.

25. Economics - Consumer Rights

Project work

Q1

Assertion (A): Consumers have a right to be informed about product details.

Reason (R): Labels can disclose ingredients, price, quantity, date and safety information.

Q2

Assertion (A): A consumer who receives a defective product has no route to seek redressal.

Reason (R): Consumer-protection mechanisms allow complaints and remedies under applicable rules.

Answer key and explanations

01. History - The Rise of Nationalism in Europe

Q1 - A. Popular sovereignty encouraged the idea of a nation of citizens.

Q2 - A. The settlement sought to restore the pre-revolutionary balance of power.

02. History - Nationalism in India

Q1 - A. Detention without trial was one of those coercive powers.

Q2 - A. A shared everyday necessity helped make the protest widely resonant.

03. History - The Making of a Global World

Q1 - A. These routes linked faraway societies through exchange and contact.

Q2 - A. Disease sharply weakened populations and resistance in the Americas.

04. History - The Age of Industrialisation

Q1 - A. This dispersed production system preceded factory industrialisation.

Q2 - D. The assertion is false; the reason is true.

05. History - Print Culture and the Modern World

Q1 - A. Reproduction made ideas available to more readers.

Q2 - A. Cheaper, faster reproduction widened the circulation of knowledge.

06. Geography - Resources and Development

Q1 - A. Planning helps use varied and limited resources responsibly.

Q2 - A. The deposited material commonly provides nutrients and a workable soil texture.

07. Geography - Forest and Wildlife Resources

Q1 - A. Protecting species and habitats helps maintain these ecological relationships.

Q2 - A. Involvement can align conservation with local stewardship and needs.

08. Geography - Water Resources

Q1 - A. Stored rain can supplement other sources and replenish aquifers.

Q2 - A. Competing needs can lead to disputes about allocation and control.

09. Geography - Agriculture

Q1 - A. Its usual growing season matches the kharif calendar.

Q2 - D. The assertion is false; the reason is true.

10. Geography - Minerals and Energy Resources

Q1 - A. Their formation is far slower than their extraction and use.

Q2 - A. Lower demand can conserve limited resources.

11. Geography - Manufacturing Industries

Q1 - A. Transformation creates goods that can be more useful and valuable.

Q2 - D. The assertion is false; the reason lists several relevant factors.

12. Geography - Lifelines of National Economy

Q1 - A. Connectivity enables exchange and economic links.

Q2 - A. Ports connect maritime transport with inland distribution and overseas markets.

13. Political Science - Power-sharing

Q1 - A. Participation can reduce exclusion and build confidence among groups.

Q2 - D. The assertion is false; the reason is true.

14. Political Science - Federalism

Q1 - A. A constitutional division defines the powers of each level.

Q2 - D. The assertion is false; the reason describes how reorganisation accommodated diversity.

15. Political Science - Democracy and Diversity

Q1 - A. Cross-cutting identities can bring people together across one divide.

Q2 - A. Multiple reinforcing differences can deepen a social divide.

16. Political Science - Gender, Religion and Caste

Q1 - A. Equal treatment is a central feature of a secular democratic state.

Q2 - D. The assertion is false; the reason is true.

17. Political Science - Popular Struggles and Movements

Q1 - A. Organised pressure can shape political responses and policy choices.

Q2 - D. The assertion is false; the reason shows methods vary.

18. Political Science - Political Parties

Q1 - A. Competition gives voters organised alternatives.

Q2 - D. The assertion is false; the reason describes a one-party system.

19. Political Science - Outcomes of Democracy

Q1 - A. Public scrutiny and electoral choice create accountability.

Q2 - D. The assertion is false; the reason is true.

20. Political Science - Challenges to Democracy

Q1 - A. Stronger institutions and engagement can improve democratic functioning.

Q2 - D. The assertion is false; the reason is true.

21. Economics - Development

Q1 - A. Different priorities produce different goals.

Q2 - D. The assertion is false; the reason gives other important dimensions.

22. Economics - Sectors of the Indian Economy

Q1 - A. These services enable activities in the other sectors.

Q2 - D. The assertion is false; the reason describes typical organised-sector features.

23. Economics - Money and Credit

Q1 - A. Money separates the sale of one good from the purchase of another.

Q2 - A. The stated institutions fall within the regulated formal sector.

24. Economics - Globalisation and the Indian Economy

Q1 - A. These changes make cross-border coordination easier.

Q2 - A. Cross-border exchange links markets and gives consumers more choices.

25. Economics - Consumer Rights

Q1 - A. Product information supports informed consumer choice.

Q2 - D. The assertion is false; the reason is true.
