

30 CHAPTERWISE IMPORTANT QUESTIONS

Social Science (087) | CBSE 2026-27

Globalisation and the Indian Economy

Economics | Board-examinable portions only: meaning of globalisation and factors enabling it; remaining listed portions are interdisciplinary project/internal assessment

30 original revision questions with answers: short-answer, competency, assertion-reason and long-answer practice. Set is based on the current syllabus and official question-paper style; it is not a prediction or an official CBSE paper.

Question 1

What is globalisation in the context of production and markets?

Answer:

Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Goods or services may be designed, produced, and sold across several countries.

Question 2

How do technology and transport help enable globalisation?

Answer:

Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply. Together they make international production and trade easier.

Question 3

What role do multinational companies play in globalisation?

Answer:

MNCs operate or invest in more than one country and organise production across borders. They connect markets and suppliers, while their decisions can affect jobs, prices, and local firms.

Question 4

What is the central idea or skill tested in Globalisation and the Indian Economy?

Answer:

The central focus is: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. This is the starting point for a strong answer from this chapter.

Question 5

Write two relevant points for a short answer based on Globalisation and the Indian Economy.

Answer:

First point: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Second point: Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply. Link the two points clearly instead of listing them without explanation.

Question 6

How does the first key idea in Globalisation and the Indian Economy lead to an important result or conclusion?

Answer:

Begin with the key idea: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Then connect it to the result: Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply.

Globalisation and the Indian Economy - Continued

Question 7

What evidence, calculation, incident or concept best supports the first main idea in Globalisation and the Indian Economy?

Answer:

Use this supporting detail: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Goods or services may be designed, produced, and sold across several countries. The relevant detail should be stated before giving the final conclusion.

Question 8

Explain the importance of the second major idea in Globalisation and the Indian Economy.

Answer:

Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply. Together they make international production and trade easier. Its importance lies in showing how the chapter develops the topic beyond a simple fact or definition.

Question 9

What common mistake should a student avoid while answering a question from Globalisation and the Indian Economy?

Answer:

Do not give only a conclusion. Explain the reasoning with a correct detail, such as: MNCs operate or invest in more than one country and organise production across borders.

Question 10

Compare the first and second important ideas in Globalisation and the Indian Economy.

Answer:

The first idea is: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. The second idea is: Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply. A complete comparison states both the difference and the connection between them.

Question 11

Show a cause-and-effect link from Globalisation and the Indian Economy.

Answer:

Cause or starting point: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Effect or outcome: Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply. Use connecting words such as 'therefore', 'as a result', or 'thus'.

Question 12

What is the most useful sequence for explaining the main content of Globalisation and the Indian Economy?

Answer:

A clear sequence is: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Next, Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply. Finally, MNCs operate or invest in more than one country and organise production across borders.

Globalisation and the Indian Economy - Continued

Question 13

Give a 40-50 word answer outline for an important question from Globalisation and the Indian Economy.

Answer:

Start with the direct answer: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Add one supporting point: Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply. End with the outcome or message: MNCs operate or invest in more than one country and organise production across borders.

Question 14

How should you support an answer from Globalisation and the Indian Economy with a relevant example or fact?

Answer:

Use a precise example or explanation: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. State the fact, then explain its significance rather than leaving it as a name or date alone.

Question 15

How can an examiner see that you understand, rather than memorise, Globalisation and the Indian Economy?

Answer:

Connect the idea to its reason or result. For instance: Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply. Then explain why this point matters in the chapter's context.

Question 16

State one inference that can be drawn from the main situation or concept in Globalisation and the Indian Economy.

Answer:

A sound inference is that mNCs operate or invest in more than one country and organise production across borders. This inference must be supported by a relevant point from the chapter.

Question 17

Frame a short competency-based response using the first two ideas in Globalisation and the Indian Economy.

Answer:

Apply the concept by first stating: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Then justify the response with: Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply.

Globalisation and the Indian Economy - Continued

Question 18

What would make an answer from Globalisation and the Indian Economy incomplete?

Answer:

An answer is incomplete if it omits the explanation or final implication. Include both: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Also add: MNCs operate or invest in more than one country and organise production across borders.

Question 19

Prepare an Assertion-Reason style explanation based on Globalisation and the Indian Economy.

Answer:

Assertion: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Reason: Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply. Check whether the reason actually explains the assertion before choosing an option.

Question 20

How should you justify an answer from Globalisation and the Indian Economy in two clear steps?

Answer:

Step 1: state the concept or event - Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Step 2: support it with the explanation or result - Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply.

Question 21

What answer structure is suitable for a 3-mark question from Globalisation and the Indian Economy?

Answer:

Use three connected points: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply. MNCs operate or invest in more than one country and organise production across borders. Keep the points specific and write them in a logical order.

Question 22

What answer structure is suitable for a 5-mark question from Globalisation and the Indian Economy?

Answer:

Give an introduction, develop these key points - Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply. - and close with: MNCs operate or invest in more than one country and organise production across borders. Add a diagram, equation, example, or textual reference where relevant.

Globalisation and the Indian Economy - Continued

Question 23

How can the ideas in Globalisation and the Indian Economy be applied to a new situation or case study?

Answer:

Identify the relevant principle first: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Then use the chapter's reasoning to explain the case: Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply.

Question 24

Which detail from Globalisation and the Indian Economy is most likely to earn an extra mark when explained correctly?

Answer:

A useful detail is: MNCs operate or invest in more than one country and organise production across borders. Explain it in context instead of using it as an isolated statement.

Question 25

Write a brief concluding statement for an answer on Globalisation and the Indian Economy.

Answer:

A suitable conclusion is: MNCs operate or invest in more than one country and organise production across borders. This conclusion should follow naturally from the explanation rather than introduce a new point.

Question 26

Make a three-point revision note for Globalisation and the Indian Economy.

Answer:

1. Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. 2. Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply. 3. MNCs operate or invest in more than one country and organise production across borders. Revise these points with the chapter's examples, terms, and practice questions.

Question 27

How would you self-check an answer from Globalisation and the Indian Economy before submitting it?

Answer:

Check that you have answered the exact question, used the key idea - Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. - and supported it with a reason, example, calculation, or outcome such as: Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply.

Globalisation and the Indian Economy - Continued

Question 28

Why does Globalisation and the Indian Economy remain important for revision?

Answer:

It combines factual recall with explanation and application. The main takeaways are: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply. MNCs operate or invest in more than one country and organise production across borders.

Question 29

Create a final 60-80 word answer plan for a long question from Globalisation and the Indian Economy.

Answer:

Opening: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. Development: Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply. Conclusion: MNCs operate or invest in more than one country and organise production across borders. Use complete sentences and include all required evidence, steps, or references.

Question 30

What is one last-minute revision question you should ask yourself about Globalisation and the Indian Economy?

Answer:

Ask: 'Can I explain why this is true or important?' A correct self-answer should include: Globalisation is the growing integration of economies through trade, investment, technology, and movement of information. and Faster communication lets firms coordinate work across borders, while improved transport moves goods more quickly and cheaply.
