

# 30 CHAPTERWISE IMPORTANT QUESTIONS

Social Science (087) | CBSE 2026-27

## Sectors of the Indian Economy

*Economics | Board-examinable*

30 original revision questions with answers: short-answer, competency, assertion-reason and long-answer practice. Set is based on the current syllabus and official question-paper style; it is not a prediction or an official CBSE paper.

### Question 1

**How are primary, secondary, and tertiary sectors connected?**

Answer:

The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both.

### Question 2

**What is disguised unemployment? Give an example.**

Answer:

It occurs when more people work than are needed, so some workers add little or no extra output. On a small farm, several family members may share work that fewer people could complete.

### Question 3

**Why may the government need to support workers in the unorganised sector?**

Answer:

Workers may lack regular wages, job security, paid leave, or social protection. Public rules and services can improve safety and help protect them from exploitation.

### Question 4

**What is the central idea or skill tested in Sectors of the Indian Economy?**

Answer:

The central focus is: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. This is the starting point for a strong answer from this chapter.

### Question 5

**Write two relevant points for a short answer based on Sectors of the Indian Economy.**

Answer:

First point: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. Second point: It occurs when more people work than are needed, so some workers add little or no extra output. Link the two points clearly instead of listing them without explanation.

### Question 6

**How does the first key idea in Sectors of the Indian Economy lead to an important result or conclusion?**

Answer:

Begin with the key idea: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. Then connect it to the result: It occurs when more people work than are needed, so some workers add little or no extra output.

### Question 7

**What evidence, calculation, incident or concept best supports the first main idea in Sectors of the Indian Economy?**

Answer:

Use this supporting detail: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. The relevant detail should be stated before giving the final conclusion.

### Question 8

**Explain the importance of the second major idea in Sectors of the Indian Economy.**

Answer:

It occurs when more people work than are needed, so some workers add little or no extra output. On a small farm, several family members may share work that fewer people could complete. Its importance lies in showing how the chapter develops the topic beyond a simple fact or definition.

### Question 9

**What common mistake should a student avoid while answering a question from Sectors of the Indian Economy?**

Answer:

Do not give only a conclusion. Explain the reasoning with a correct detail, such as: Workers may lack regular wages, job security, paid leave, or social protection.

### Question 10

**Compare the first and second important ideas in Sectors of the Indian Economy.**

Answer:

The first idea is: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. The second idea is: It occurs when more people work than are needed, so some workers add little or no extra output. A complete comparison states both the difference and the connection between them.

### Question 11

**Show a cause-and-effect link from Sectors of the Indian Economy.**

Answer:

Cause or starting point: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. Effect or outcome: It occurs when more people work than are needed, so some workers add little or no extra output. Use connecting words such as 'therefore', 'as a result', or 'thus'.

### Question 12

**What is the most useful sequence for explaining the main content of Sectors of the Indian Economy?**

Answer:

A clear sequence is: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. Next, It occurs when more people work than are needed, so some workers add little or no extra output. Finally, Workers may lack regular wages, job security, paid leave, or social protection.

## Sectors of the Indian Economy - Continued

### Question 13

**Give a 40-50 word answer outline for an important question from Sectors of the Indian Economy.**

Answer:

Start with the direct answer: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. Add one supporting point: It occurs when more people work than are needed, so some workers add little or no extra output. End with the outcome or message: Workers may lack regular wages, job security, paid leave, or social protection.

### Question 14

**How should you support an answer from Sectors of the Indian Economy with a relevant example or fact?**

Answer:

Use a precise example or explanation: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. State the fact, then explain its significance rather than leaving it as a name or date alone.

### Question 15

**How can an examiner see that you understand, rather than memorise, Sectors of the Indian Economy?**

Answer:

Connect the idea to its reason or result. For instance: It occurs when more people work than are needed, so some workers add little or no extra output. Then explain why this point matters in the chapter's context.

### Question 16

**State one inference that can be drawn from the main situation or concept in Sectors of the Indian Economy.**

Answer:

A sound inference is that workers may lack regular wages, job security, paid leave, or social protection. This inference must be supported by a relevant point from the chapter.

### Question 17

**Frame a short competency-based response using the first two ideas in Sectors of the Indian Economy.**

Answer:

Apply the concept by first stating: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. Then justify the response with: It occurs when more people work than are needed, so some workers add little or no extra output.

### Question 18

**What would make an answer from Sectors of the Indian Economy incomplete?**

Answer:

An answer is incomplete if it omits the explanation or final implication. Include both: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. Also add: Workers may lack regular wages, job security, paid leave, or social protection.

### Question 19

**Prepare an Assertion-Reason style explanation based on Sectors of the Indian Economy.**

Answer:

Assertion: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. Reason: It occurs when more people work than are needed, so some workers add little or no extra output. Check whether the reason actually explains the assertion before choosing an option.

### Question 20

**How should you justify an answer from Sectors of the Indian Economy in two clear steps?**

Answer:

Step 1: state the concept or event - The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. Step 2: support it with the explanation or result - It occurs when more people work than are needed, so some workers add little or no extra output.

### Question 21

**What answer structure is suitable for a 3-mark question from Sectors of the Indian Economy?**

Answer:

Use three connected points: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. It occurs when more people work than are needed, so some workers add little or no extra output. Workers may lack regular wages, job security, paid leave, or social protection. Keep the points specific and write them in a logical order.

### Question 22

**What answer structure is suitable for a 5-mark question from Sectors of the Indian Economy?**

Answer:

Give an introduction, develop these key points - The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. It occurs when more people work than are needed, so some workers add little or no extra output. - and close with: Workers may lack regular wages, job security, paid leave, or social protection. Add a diagram, equation, example, or textual reference where relevant.

### Question 23

**How can the ideas in Sectors of the Indian Economy be applied to a new situation or case study?**

Answer:

Identify the relevant principle first: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. Then use the chapter's reasoning to explain the case: It occurs when more people work than are needed, so some workers add little or no extra output.

### Question 24

**Which detail from Sectors of the Indian Economy is most likely to earn an extra mark when explained correctly?**

Answer:

A useful detail is: Workers may lack regular wages, job security, paid leave, or social protection. Explain it in context instead of using it as an isolated statement.

### Question 25

**Write a brief concluding statement for an answer on Sectors of the Indian Economy.**

Answer:

A suitable conclusion is: Workers may lack regular wages, job security, paid leave, or social protection. This conclusion should follow naturally from the explanation rather than introduce a new point.

### Question 26

**Make a three-point revision note for Sectors of the Indian Economy.**

Answer:

1. The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. 2. It occurs when more people work than are needed, so some workers add little or no extra output. 3. Workers may lack regular wages, job security, paid leave, or social protection. Revise these points with the chapter's examples, terms, and practice questions.

### Question 27

**How would you self-check an answer from Sectors of the Indian Economy before submitting it?**

Answer:

Check that you have answered the exact question, used the key idea - The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. - and supported it with a reason, example, calculation, or outcome such as: It occurs when more people work than are needed, so some workers add little or no extra output.

## Sectors of the Indian Economy - Continued

### Question 28

**Why does Sectors of the Indian Economy remain important for revision?**

Answer:

It combines factual recall with explanation and application. The main takeaways are: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. It occurs when more people work than are needed, so some workers add little or no extra output. Workers may lack regular wages, job security, paid leave, or social protection.

### Question 29

**Create a final 60-80 word answer plan for a long question from Sectors of the Indian Economy.**

Answer:

Opening: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both.

Development: It occurs when more people work than are needed, so some workers add little or no extra output. Conclusion: Workers may lack regular wages, job security, paid leave, or social protection. Use complete sentences and include all required evidence, steps, or references.

### Question 30

**What is one last-minute revision question you should ask yourself about Sectors of the Indian Economy?**

Answer:

Ask: 'Can I explain why this is true or important?' A correct self-answer should include: The primary sector supplies raw materials, the secondary sector processes them into goods, and the tertiary sector provides transport, finance, trade, and other services that support both. and It occurs when more people work than are needed, so some workers add little or no extra output.
