

30 CHAPTERWISE IMPORTANT QUESTIONS

Social Science (087) | CBSE 2026-27

The Making of a Global World

History | Board: pre-modern world and subtopics 1-1.3 only; remaining portions are project/internal assessment

30 original revision questions with answers: short-answer, competency, assertion-reason and long-answer practice. Set is based on the current syllabus and official question-paper style; it is not a prediction or an official CBSE paper.

Question 1

Give two examples of connections between regions in the pre-modern world.

Answer:

Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. These links connected distant communities long before modern transport.

Question 2

How did food crops demonstrate early global connections?

Answer:

Crops travelled across oceans through trade and migration. Potatoes and other foods from the Americas changed diets elsewhere, showing that everyday life could be reshaped by long-distance exchange.

Question 3

How did disease affect the European conquest of the Americas?

Answer:

European conquerors brought diseases such as smallpox to populations with little immunity. The resulting loss of life weakened societies and aided conquest, alongside weapons and political force.

Question 4

What is the central idea or skill tested in The Making of a Global World?

Answer:

The central focus is: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. This is the starting point for a strong answer from this chapter.

Question 5

Write two relevant points for a short answer based on The Making of a Global World.

Answer:

First point: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. Second point: Crops travelled across oceans through trade and migration. Link the two points clearly instead of listing them without explanation.

Question 6

How does the first key idea in The Making of a Global World lead to an important result or conclusion?

Answer:

Begin with the key idea: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. Then connect it to the result: Crops travelled across oceans through trade and migration.

Question 7

What evidence, calculation, incident or concept best supports the first main idea in The Making of a Global World?

Answer:

Use this supporting detail: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. These links connected distant communities long before modern transport. The relevant detail should be stated before giving the final conclusion.

Question 8

Explain the importance of the second major idea in The Making of a Global World.

Answer:

Crops travelled across oceans through trade and migration. Potatoes and other foods from the Americas changed diets elsewhere, showing that everyday life could be reshaped by long-distance exchange. Its importance lies in showing how the chapter develops the topic beyond a simple fact or definition.

Question 9

What common mistake should a student avoid while answering a question from The Making of a Global World?

Answer:

Do not give only a conclusion. Explain the reasoning with a correct detail, such as: European conquerors brought diseases such as smallpox to populations with little immunity.

Question 10

Compare the first and second important ideas in The Making of a Global World.

Answer:

The first idea is: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. The second idea is: Crops travelled across oceans through trade and migration. A complete comparison states both the difference and the connection between them.

Question 11

Show a cause-and-effect link from The Making of a Global World.

Answer:

Cause or starting point: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. Effect or outcome: Crops travelled across oceans through trade and migration. Use connecting words such as 'therefore', 'as a result', or 'thus'.

Question 12

What is the most useful sequence for explaining the main content of The Making of a Global World?

Answer:

A clear sequence is: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. Next, Crops travelled across oceans through trade and migration. Finally, European conquerors brought diseases such as smallpox to populations with little immunity.

The Making of a Global World - Continued

Question 13

Give a 40-50 word answer outline for an important question from The Making of a Global World.

Answer:

Start with the direct answer: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. Add one supporting point: Crops travelled across oceans through trade and migration. End with the outcome or message: European conquerors brought diseases such as smallpox to populations with little immunity.

Question 14

How should you support an answer from The Making of a Global World with a relevant example or fact?

Answer:

Use a precise example or explanation: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. State the fact, then explain its significance rather than leaving it as a name or date alone.

Question 15

How can an examiner see that you understand, rather than memorise, The Making of a Global World?

Answer:

Connect the idea to its reason or result. For instance: Crops travelled across oceans through trade and migration. Then explain why this point matters in the chapter's context.

Question 16

State one inference that can be drawn from the main situation or concept in The Making of a Global World.

Answer:

A sound inference is that European conquerors brought diseases such as smallpox to populations with little immunity. This inference must be supported by a relevant point from the chapter.

Question 17

Frame a short competency-based response using the first two ideas in The Making of a Global World.

Answer:

Apply the concept by first stating: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. Then justify the response with: Crops travelled across oceans through trade and migration.

Question 18

What would make an answer from The Making of a Global World incomplete?

Answer:

An answer is incomplete if it omits the explanation or final implication. Include both: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. Also add: European conquerors brought diseases such as smallpox to populations with little immunity.

The Making of a Global World - Continued

Question 19

Prepare an Assertion-Reason style explanation based on The Making of a Global World.

Answer:

Assertion: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. Reason: Crops travelled across oceans through trade and migration. Check whether the reason actually explains the assertion before choosing an option.

Question 20

How should you justify an answer from The Making of a Global World in two clear steps?

Answer:

Step 1: state the concept or event - Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. Step 2: support it with the explanation or result - Crops travelled across oceans through trade and migration.

Question 21

What answer structure is suitable for a 3-mark question from The Making of a Global World?

Answer:

Use three connected points: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. Crops travelled across oceans through trade and migration. European conquerors brought diseases such as smallpox to populations with little immunity. Keep the points specific and write them in a logical order.

Question 22

What answer structure is suitable for a 5-mark question from The Making of a Global World?

Answer:

Give an introduction, develop these key points - Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. Crops travelled across oceans through trade and migration. - and close with: European conquerors brought diseases such as smallpox to populations with little immunity. Add a diagram, equation, example, or textual reference where relevant.

Question 23

How can the ideas in The Making of a Global World be applied to a new situation or case study?

Answer:

Identify the relevant principle first: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. Then use the chapter's reasoning to explain the case: Crops travelled across oceans through trade and migration.

Question 24

Which detail from The Making of a Global World is most likely to earn an extra mark when explained correctly?

Answer:

A useful detail is: European conquerors brought diseases such as smallpox to populations with little immunity. Explain it in context instead of using it as an isolated statement.

The Making of a Global World - Continued

Question 25

Write a brief concluding statement for an answer on The Making of a Global World.

Answer:

A suitable conclusion is: European conquerors brought diseases such as smallpox to populations with little immunity. This conclusion should follow naturally from the explanation rather than introduce a new point.

Question 26

Make a three-point revision note for The Making of a Global World.

Answer:

1. Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. 2. Crops travelled across oceans through trade and migration. 3. European conquerors brought diseases such as smallpox to populations with little immunity. Revise these points with the chapter's examples, terms, and practice questions.

Question 27

How would you self-check an answer from The Making of a Global World before submitting it?

Answer:

Check that you have answered the exact question, used the key idea - Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. - and supported it with a reason, example, calculation, or outcome such as: Crops travelled across oceans through trade and migration.

Question 28

Why does The Making of a Global World remain important for revision?

Answer:

It combines factual recall with explanation and application. The main takeaways are: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. Crops travelled across oceans through trade and migration. European conquerors brought diseases such as smallpox to populations with little immunity.

Question 29

Create a final 60-80 word answer plan for a long question from The Making of a Global World.

Answer:

Opening: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. Development: Crops travelled across oceans through trade and migration. Conclusion: European conquerors brought diseases such as smallpox to populations with little immunity. Use complete sentences and include all required evidence, steps, or references.

The Making of a Global World - Continued

Question 30

What is one last-minute revision question you should ask yourself about The Making of a Global World?

Answer:

Ask: 'Can I explain why this is true or important?' A correct self-answer should include: Trade routes moved goods such as silk and spices across continents, while travellers and pilgrims carried ideas and beliefs. and Crops travelled across oceans through trade and migration.
